

GLY4734/6932 Sea Cliff Retreat Activity

Group 2

April 17, 2019

Application installation instructions

1. Download the application installation script from Canvas and run it in MATLAB.
 - (a) Find today's date on "Course Notes and Slides" and click the "mfile" link.
 - (b) Open this mfile in MATLAB and run it.
 - (c) ***NOTE: If you are using MATLAB through UFApps, you will need to open Canvas through UFApps as well to download the file into your M drive.
2. Select the "APPS" tab in the top ribbon of MATLAB. You should see an application called "Sea Cliffs" in your installed apps.
3. Run "Sea Cliffs".
